My Dear Nora and Baby
I am here in the
Capitol of our Ter. and find it
a very nice place will remain
but a very short time as I want
to can vas down the South side
of the R. to Coldwell I dont
think I can finish your letter now
but will to night wherever I
stop
Here I am 2 or 3 mi. below
B. C. and put up for the night
I will now give you a discription
of the town The place is not
near so large as Logan but a
nice place it beats any thing
of its size I ever saw in fact
it is a beauty the only thing

that L. can beat it in in the way it is layed out the streets are very narrow & the blocks very small taking 4 to make one in L. It is much better shaded but I don't think any better watered. It has some very nice buildings & haven't seen all of the town as I was in but a short time & am a little behind of my delivery it took me longer to canvas the N. side of the river than I thought it would. There are not near so many ranches on this side & I am not going to run it so close will hurry & get to Caldwell by the last of this wk. and begin the delivery. It has been very cold here for a week last monday a week ago it was Decoration Day in B. C. & it was so hot there was a man sunstroke and last Sam. it was raining & so cold they had to have a fire & last night I had more cover on my bed than last winter & was not warm

People say they never seen the like. I like this country better than Bear Lake

Well My Dear

It was just 2 wk. & the da. from the time I left Home till I got your letter & You can hardly imagine how anxious I was to get word I ans. your letter right away but forgot to put My letter in Will I do this time I was really a little home sick a day but I guess I will get over it all right soon. It leaves me when I think How bad I need the money then I think you & dear little Wesley is all right & I can Home
