

Dingle
8-31-1934

My Dear girl:

just got thru washing dishes
and it is 20 min to 100. Will it be up hill
business getting the old ranch righted
It would take pages to explain. I do know
I have let it go too long, that - it could be easy.
K.O. is the only one of the family that has
haying from the help a little when we started
& took sick & was off all yesterday and he
drove the draft team. Mr. & Mrs. have a job
with government & have not been out
as yet. Mr. has a man running his team
& Mrs. team has been idle most of the
time. The men helping further Sorenson &
Eldon Sorenson Eldon Oay & J. Lindsay
& K.O. Have done better than it has done
for many yrs. They get in stack better than
one & I keep right up to the mowers
and fence all stack yards as they go a long
8 more days & we will be thru with 1/2 crop.

Lucile is coming out this afternoon
& will leave Forest for a few days. She is off
for Berkley in a wk. The day I got here
I went out to see her & she wanted to know
how Doug was & believe me. I told her just how
how well he was looking & I guess I got for

well helped me

She was asking me yesterday more particulars and I gave her a good one. Told her it sure was a vacation for him. He looked well & seemed to be enjoying himself immensely and said she had to go & see that he was not too attentive to the ladies. You could see it was turning her up. So she will be on her way soon.

Just a word about John Rogers. You know he is some kid. Norma has a churn & when he was 14 mo. old he did a complete churning all a laim and yesterday (16 mo.) he did another & when Norma & the butter out & filled the churn up again he refused to do it. He goes out in the road all alone. Once I was sitting in the car outside the fence & I saw him going to the road & called to him. He turned round & came straight for me laid down and tried to get under the fence but, couldn't make it & Rodney came & lifted him over the fence & he followed thru the lucern to where I was. I opened the car door & he climbed in & up on the seat & was ready to go. I was writing & the Hall door was ajar & I heard a slight noise & said come in & he pushed it open & brot three sticks of wood (Willows) and laid them down in the middle of the floor turned round & waked out and a lot of things he does that is noticeable. One thing he never winks his eyes, does not matter if it is 12 O' at night & he has been out with Norma.

Well I'll say a few words & quit -
It looks cloudy. We had a shower
last night. Every body seems
pretty well. The Oakes have been having
a reunion for over a wk.

Say if Mike is hot here 118° in Sun,
and if I sweat all over water just
runs out of me. Well the low down -
Calvin Lewis (Tom's) boy was in a creek
night 24, & I guess got a pretty
may have to have his leg taken off
broken above the knee & near the
hip & badly mangled besides a many
other cuts & bruises & his girl got some
ribs broken. I'm on Crockett but
then to Mont - this happened at
Bennington Apr 20 on coming
from Silver Pond (or the mud hole)
John O'Connor's dad has been quite
a while. Surine's boy 8 yrs. old has
a bad case of Appendicitis - puss case
may live. Quite a lot are having
Summer Flu. There many other
stunts I guess I told you. My Johnson
died of cancer of stomach.

Government has started buying
cattle + shipping out. The Sifter
house at Montpelier is ready to start
killing. Quayle has 300 head that must
go. If you read the papers or hear
the radio you can get some idea of
how they are killing stuff. Something
terrible there will be over 75% of the
cattle killed here in B.L.D.

We will be shipping as soon as the
strike is over at Chicago
+ we will let some go to the
Government + buy younger stuff

Well this a.m. I have time it is soon
12 @ 10. to. Her own office sealers
some bunch. Don't you wish
you could not be in Idaho.

Jack Kent + Norma send love
Tell all that engineers about
me. Well Ok,

As ever yours
Will,
