Dear folks,

Your card arrived today and we are all very pleased that you are steadily improving, mother.

There is one thing I should like changed. That is you should have support & don't wait until you have an accident before you are picked up.

We have been expecting you folks up this way for some time but don't rush things.

I hope your rheumatism is better, Dad. That you & family are all well & happy.

Mrs. Bauman - from Manila stopped a few hrs with us a wk ago. Report everything O.K. with all the folks there. Will see you folks in September.

Love from us all
you
Douglas.
