Dear Mother & Dad:

I was very pleased to receive your nice letter of the 25th and to know that you are all well and we all hope for better days soon.

Dad, I have been thinking of you for several days - not knowing where you were nor where to write so I just waited. When Mother said your ticket would soon be up I supposed you would beat L.B. In any event we all join in wishing you many happy returns of your birthday. I just talked to Milton & he was going to send you a night letter but didn't because he knew not where you would be. They are all well & doing nicely.

It has just started raining, the first since last spring, & looks as though it might keep it up all night. It reminds me of the farn, only there it was usually snow.

How is it up there anyway? I hope the crops were good & bring a good price.

We are all well hope we may continue to stay well. Business is not rushing by a good deal. Another M.D. opened his office a few blocks away.

He tries to rent the other half of the building
rather nervous, I say. Probably thought
I had enough patients for the two of
us.

I suppose you folks are having a
little rain there also. Oh well it is about
time things were being soaked up a
little.

No more news so will close

Lovingly yours kid
Douglas.
