

February 13, 1955

Dear Mr. & Mrs. Ream,

Ever since Christmass I've been intending to answer your letter. But my hand is still in the same condition and I'm depending upon someone to write for me. I find everyone so busy with their house work that I hate to ask them to write. Hardly a day passes over that it doesn't bring its good times and its sad times. I do not gain much in strength and activeness and I long for summer again. I just got over a bad cold and still have the effects of it.

I was glad to learn that you had gone to the mission field and where you had gone. For some time I did not find anyone to tell me whether you had gone to the Mission Field are not. We Hope you labors well be crowned with success. We have a boy from Lund in Gorgia too on a Mission. Mathe you will meet up with him his name is Vern Hunter.

I hope you have health and strength during the time you are gone and that we have the priviledge to again see you.

Your Loving Aunt,

Delia

P. S. Hope to hear from you soon

Aunt Felia
 June 2.
