Dear Mother
Had hoped to see you long before now, but time is so crowded in the end & you seem to be too busy down there to come up here & When are you coming? We will still be most happy to make all arrangements any time you say — the sooner the better. Meant to write you immediately on receipt of the birth certificate. It was a splendid thing to do — your own hand printing too — but always do nice things. Loads of love to all for Easter & especially to Mother. Love Milton.

It may be just your thoughtfulnes
It may be just your way
Of thinking of nice things to do
And helpful things to say.
It may be any one of these,
But this I know is true,
They all are perfect reasons
Why I think so much of you
