Mr. & Mrs. W. D. Peam

929 Yavola Avenue

Long Beach
California

We just brought the sheep in Sunday. W. A. has been feeding his cattle for more than a week but I started feeding my cattle at the same time as the sheep. It has surely been a saving on hay.

Jean and Helen both got home last Friday. They came with Rodney. They both seem to be doing well in school. And Helen is having the time of her life. She likes Helen's brother and his wife very well. She got acquainted with old Mr. Osmond, and thinks he is a fine old man. She seems to be making a hit with all her teachers.

We are all doing well except for finances. It seems as though there is no sale for anything for prices that make it worth while to sell. We have nothing to spend for Christmas. It is going to be some job to get together enough so that Helen & Jean enough together so that they may register for the rest of the school year. But I guess it will all come out in the end.

The man from the state has not yet appeared to investigate the mercury lot, yet, so I suppose he will not now be here until Spring.

We all hope you have joyous Christmas and a Happy New Year and that you are all well,
Love from all to all

Wesley & family
