My Dear Ida,

Well I was surprised & tickled to get your good letter and the 5. bucks. Now I am telling what I did with it. I sent for me a double kernal tress, in this way I got the money order <sup>and</sup> paid for it with the 5. and took the serial number & had for Lindsay hold bill till I got any others & I will keep it as a good mascot for to me it was a good thing & very thoful of you to send it. So heres thanks many and many a times. When it comes and proves to be a good fit & takes care of any riptures I'll think of you every time I put it on & take it off & each time a thank you will be in my mind.

Yes it was very nice of Bob to do as he did <sup>and</sup> suggest what he did a bow to lots & proceeds. But the act made me think of a poem I used to read in my school book. a boy with a spider and the fly. You are the fly but don't go

into any spiders parlor or be fattened  
by any spider or you end will be  
as tall flies are. The poem starts  
out like this

Come walk into my parlor said the  
spider to the fly it is the prettiest  
parlor you ever did spy. The way  
into my parlor is up a winding <sup>stair</sup>  
and I have many pretty things <sup>to</sup>  
show you when you there. The fly  
went as mos-flies do and never  
come out again. The moral is this  
Never believe a flatter or you will  
lose. Remember dad's advice &  
think twice - and keep the lots for  
your own set kids. For the day is  
coming you may need it & badly too  
you have all in your own hands &  
just use good judgement in  
way you take care of it. The deal  
is a clean out deal of your manage-  
ment, regardless of anyone else & it  
is absolutely yours so make the best  
of it let no argument or sympathy  
influence you in any way. I guess <sup>that's</sup>  
that will be you & may make you <sup>but it's done</sup> <sup>well</sup>.

A new sheet & a different subject  
K O & Rutter went to North canyon  
to cut trees they have 74 left out of  
186. They have them to haul <sup>them</sup> to  
down to the mill which will keep them  
busy. Rutter has gone with him <sup>every</sup>  
day & day & to tomorrow will do  
the cutting them. Hay in is soon  
starting & it is quite a question  
about it I'll have some 20 tons  
here on the 4th maybe if all goes well  
Even today well (lots of rain) &  
not so hot bad weather for haying  
I got a letter from B., she said  
she that Bob might drop you off  
on his way. I look for you both to  
drop in. Got a letter but her letter  
changed my idea. She will come  
late I suppose I would have been  
glad to have had you both come <sup>some</sup>  
time. Bill quit me soon after you  
left. Have no one helping me now  
& the final prep will be the 19 of Sept. 37  
& I've got to hurry to get ready  
and the job look big to me now

Malton said he would send me  
a ticket by way of Air So I will  
be in San Francisco on Oct. 29-31  
for my Birthday dinner if all  
well. White Lilac in full bloom  
& smells grand.

And by the way I left my eye's  
on the improve & do hope it  
good enough for me to see to  
read there goes rocky as my  
radio is dead & I can't see to read  
& this writing is bum but you  
will have to guess at most of  
it kind wish and love to you  
Rick & pal. Tell her Tony got to  
OK & will see her some day  
I'll then love Dad!

W. O. Peann

PS To Mother I'll write her soon  
you can let her read this it  
same news any way
