July 3-1938

Dear Mother - -

You'll be surprised to get this - no doubt
you have given up hopes long ago
Well we arrived safe & sound Sat. afternoon
on Ricky's Birthday -

There has been quite a bit of improving
going on Dad has an electric pump
where the well was in the basement
and now there is water in the house
also in Normas room up stairs. He also
has an air pump out by the East Kitchen
window, for the garden. The Kitchen
pump room and Aunt Mary's bedroom
are painted ivory. That is a great
improvement - It makes it light and
nice - Bill Carroll has come back
When did Ruth & Ken leave and
were they intending to come straight

home - The people here understood him to say Ruth needed a vacation and so he was going through Zion Brice and Grand canyon. I wish he would hurry home -

The children are having a good time but the wood ticks and mosquitoes are thick this year.

Dad was real disappointed that you didn't come home and expects you before the summer is over either with Ken or on the train.

I stopped at auto camp in D.D. and called on Aunt Royie for a short time - May Crckett was there David and Aunt Ruth - came and I saw them for a few minutes - all seemed well - Alta did not come as the baby was sick but will come later -

Well I hope you are well and not too homesome - Lots of love from us all -
Dad & Kithes
