

Dingle
9-31-1934

My Dear girl:

Just got thru washing dishes
and it is 20 minutes 100. Well it is up hill
business getting the old ranch righted.
It would take pages to explain. I do know
I have let it get long that it could be easy
K.O. is the only one of the family that has
helping from helped a little when we started
& got sick & was off till yesterday and he
drove the draft team. My & My have a job
with government & have not begun yet
as yet. Mr. Kagan now running his team
& the team has been better most of the
time. The men helping further around &
Eldon Johnson Eldon Day & John Day
K.O. have done better than it has done
for many yrs. They get in stock better than
one & I keep right up to the moving
and fence all stock yards as they go a long
& more days & we will be there till the crop
Lucille is coming out this afternoon
& will leave for a few days. She is off
for Berkeley in a wk. The day I got here
I went out to see her & she wanted to know
how Doug was & believe me. I told her just
how well he was looking & I guess I see

She was asking me yesterday more particulars
and I gave her a good one. Told her it sure was
a revelation for him. He looked well & seemed to
be enjoying himself immensely and said she
had to go & said that he was not to attempt
to the ladies. You could see it was burning her
up so she will be on her way soon.

Just a word about John Rogers. You know
he is some kid. Some has a "chub" when he
was 14 months he did a couple of "chub"ing all a day
and yesterday (some) he did another & when I saw the
movement of the "chub" I was surprised to find
to do it. He got out in the road all alone. One day
sitting in the car outside the fence I saw him going
to the road & called to him he turned round & came straight
for me laid down and tried to get under the fence but could not
make it & Rodney cannot lift him over the fence so he
followed about the fence & when I was looking they
car door & he climbed in & up on the seat & was ready
to go. I was sitting & the hall door was open & I heard
a slight noise & said come in & he jumped out of it
but then sticks of wood (logs) and did them down on
the middle of the floor. Turned round & looked
out & a lot of things he does that is not at all
Once things he never blinks his eyes, does not matter
if it is 100 at night & he has but out with some.

Well I'll say a few words & quit -
It looked cloudy. We had a shower
last night. Everybody seems
pretty well. The Galeys there been having
a reunion for over a wk.

Say if Mike is not here 118 in Sun,
Dad & I sweat all over water just -
runs out of me like the low down
Cahin Lewis (Tom's) boy was in a leak
night 24, & I guess got a little

may have to have his leg held off
side above the knee & I mean the
hip & badly mangled besides a many
other cuts & bruises & his girl got some
rib's broken. I'm not a doctor but
then to Mont - this happened at
Bonnington Apr 20 coming
from Lake Pad (with mud hole)

John Conroy's dad has been quite
a while. Surin's boy 2 yr old has
a bad case of appendicitis - puss case
may live. Quite a lot are having

Summer Flu. There many other
stunts I guess I told you. My Janson
dud of cancer of stomach

Government has started buying
cans + shipping out - The Safford
house at Northport is ready to start
killing. Maybe baskets but that must
go. If you read the papers + hear
the radio you can get some idea of
how they are killing stuff. Some thing
terrible. There will be over 75,000
cans killed here in B L D.

We will be shipping as soon as the
strike is up at Chicago.
+ we will get some goods from the
Government + buy younger stuff.

Will this get some time it is now
12 @ 10 to the crew office + make
some bunch best you wish
you could see her in Idaho
Jackie + Norma send love
Tell all the engineers about
me. Hell, OK.

As ever yours
Will
