My Dear Girl,

The Sun is shining fine after almost one wk. since it <sup>has</sup> commenced raining and kept up most all that time. Every thing growing fine. But I have not done a thing. Late getting here and it is so hard to find a man that will work on account of the U.P.A. So all that is left is to let things go and be consumed in the final finish, just stopped for a bit to listen to the opening program, and during the short space that has come a storm over the lake and cold winds are blowing <sup>and</sup> cold it may be another hail storm. There has been some bad ones with this storm! all in all it is a cold funny reason all told. J.R. has just finished another building 20x40 ft & has got a lot of turkeys in it. He did not get done any & soon he is nearing the 3000 mark now, wont. be hard to get to 4000. I am looking for you up this Summer Mt. if you do come you will find it as nice as last on.

I have done nothing getting here late and just could not  
get the spirit to go a head. After the round trip & back  
There seems a lack of interest combined with other  
things makes it so it is going to take an effort to start  
start out Late coming has a lot to do with it, no  
water on South field yet & much of a chance to get in  
If I work is sure tells on me and get nothing done  
Had a letter from Benlah yesterday telling Ida's school  
will be out and she will try and be there and ready to  
start soon for B.L. she is counting on being back by the  
8, Less than 10 da. here, where she was counting on 2 wks  
I told you in my last that 2 wks and guests were up to the  
Seminary. The flowers were pretty well wilted but had a lot  
of Lilacs & they were full bloom Regarding the house you should  
know best what to do, being on the job. My judgement would be  
of little consequence. If it is leaking it, sure should be stopped  
Every one seems well Louis may be home round the 14, 15th or may be in  
St. of the Seminary & when all send love Ida. I will

My Dear Girl I got your letter  
last night and to night when I opened my letter file  
I found it had not been posted. so I'll just put this  
in mail at same time just wrote a letter to B  
Had one from her yesterday too. Well I am sorry you are  
not coming. I in Beulah's letter she would be in L.P.  
the 9th the day school was out and start right away  
she spoke of you being gone and told me to tell you some  
of the plans as she would not get to see you. But, as  
you say, you are not coming she can tell you what she  
wants you to know. I was sure counting on you coming  
up. But you know best <sup>and</sup> in that case I have not a  
word to say your judgment seems well founded

It is just too bad you can't  
see the old place and the tunkies  
J.R. and Norma have. They are  
killing all of the old stock to  
morrow & you should have seen  
them. They are counting on 4000  
this yr. Every body is working hard  
W. and J.R. + M. are cutting sheep  
and going to the Summer range  
in the morning. Will J. Deulah  
think you can stand the trip  
I see no bad reason for you to come  
But at best it is a gamble + a guess  
We all sure would like to see you  
if that has any weight. The question  
how much better are off staying  
there alone. I can't reason it  
out - which would be the thing  
for you to do. Mamie + Helen as in  
S.L. waiting to come back to P.L.  
you when you get there as I am  
to bed, just go a man to work yester-  
day + I've been out with him  
this afternoon. Good night to all  
and Love as ever Will.

Sunday 11<sup>th</sup> and still cloudy and  
cold on the 11 it will be one month  
since I left San Leandro, and I have not done one  
thing to clean up for the time that you all will  
be here. In fact I've done nothing at any thing  
not even washed a handkerchief and have not had  
a dud of any kind washed. I have but one shirt the  
blue one with a ragged collar. The work shirt you  
brought from L.B. not washed I wore it a wk before I left  
and it was not washed since. Have it on now my <sup>under</sup>garments  
are dirty so you see I must have a wash day soon I can't  
get a sole to clean house or wash. Have been told to  
bring my washing & they will do it. But, I have not started  
my car yet, so washing done, am going to try and fix  
my old puddle Jumper myself & then I can go round

no water in the South field yet. Cant get a man at all  
wont work for less than 50¢ per hr. and I cant afford that.  
Have not done a tap in the lot yet. Ever one tells me I  
look fine here goes to see if I cant do something  
just a fortnight and I expect you here <sup>and things as</sup> in  
a muddle Red night. Some are busy as can be if I dont  
miss my guess they will have completed russeling & get shaked  
up. You will have to make the best of it. I seem to have lost  
my ambition. I turned in to my bed just as I left it  
last Nov. and it corresponds with the rest of my <sup>leanings</sup>  
and living after a fashion. in bed a lot of my  
time. Well it is home to me any way. I could life  
I have it better. Have see but a few people since I  
got here. This is the grumbling sheet so dont let any  
one read it. All for now so Good By and  
I am Sending Love to you & Will

Jan, 12<sup>th</sup>

Well The sheep are still  
scared and Jack is killing truckies and  
everyone just busy They have killed Dr. Lane  
and have over 200 huns and his pinning gang  
came drunk & it makes it bad for Rad. So I  
had to let my man help. Today They have to  
go tomorrow. Say my Brief case I think I  
left it there and if I did not have lost it  
if it is there send or bring it and all the papers  
and it. That tea I got of Dr. Swann and a box of  
laxative pills (Rig lax Tabs.) 2 Bx. Ex lax - I will  
use them. There are some other things I want  
but can't think of them now. If you make up  
your mind to come let me know right a  
way as I'll put some lanolin in the kitchen if you do.

and not if you don't come  
The trip will be a nice one and I  
believe you will enjoy it. OK  
On the blangor will make it  
just find air conditioned no dust  
pillows drinking up. a pro graduate  
nurse & meals cheap. Breakfast 1.50  
lunch 30¢ & dinner 3.50

This will make it very comfortable  
& a sick person should get well  
I will still be looking to see  
you round the 23 or 24 inst.

Well you will have quite a  
bunch of letters & I guess  
you will get tired of so  
much so will wind off

Love & good wishes to all  
my friends. Love Will.
