

Dingle

8-24-35

My Dear:-

I have received 2 letters since I've written. been very-very busy. But I got a set back yesterday so can't get round today commenced this letter at 9 O.C. 4 PM, & now it is 8 P.M. Have had calls all day. M. & had dinner with me, I had him rap up the bed spreads & sent for the folks & in to. I to have fire stove & give mamie, Mable & Norma one each received the over a Mo. ago. M.A. told Louis. & she call & Helen & they came up & with Denise they drew cuts & took the bundle & so rapid. God get that off my hands

I received 6 letters the day I got yours & I had letters from all my correspondance & owe them all yours is first to be ans. & I guess all the night and tomorrow it is in the hay field. Had a rain Frid. Had about - 100 tons down so quit till tomorrow. Mrs. Dug Rana came Sat. & M. & to areadia Mon. afternoon J.R. & Norma had them out for dinner J.R. went & got them all but the little one & took them back that night. Luciel said you told her a lot of things & tell me But she told not a single one did not get thru telling about her friends & folks your messages are left untold. Well I don't know what she had to tell but it was never delivered to me. if there was any thing that required an answer. The ans. will be blank as I don't

anything about anything Forest has grown &
seems a nice fellow but his mothers teachings has
its effect & he shows it. But why should I care & I
don't - That is that - Well J.R. sent you a nice
3 mo. old tom yesterday and expressed it to Dug's
place. I hope you receive it Ok. and find it very nice
I would have sent it to M.P. but I tho you would be at
Dug's place. so there it went

Well we are getting in haying good
first rain. Fred. 100 tons got it

Well the little red pills M.P. sent me was
from a bottle containing 400. he gave me a lot of
them & I had just used the last one. They were
a laxative & seemed to be very good for me
This is all I can explain about them. I sure would
like them. But if he does not remember about them
it will be all right & just forget about it. That is
all that can be done. Well my cystitis is just
getting a little bigger all the time

Well a bout the 11 of Nov. I can't say
much about it as it is out of my power to
direct. But I will be there if it is possible to do so.
can't say for how long. Things are in bad shape
yet & it will depend on how the deal goes. That
will decide just what I do. I am not craving to be here
an other winter but if I must. sighet here I'll be
it is sure imperative I should be here. just waited
2 yr. & long before taking hold of the reins I knew
I should have done so before but did not so the rent got
bigger till now it is quite a big hole to stop

Well Dug I'll ans. his letter very soon. Things as as
good as could be expected. Hope you are getting well in
every respect. The boys should keep you till you die. Love Will
