

P.S. am not looking this over for any mistake &
so guess at it or the meaning & tryed
explain. 2000.

Wingle Fair,
second da. of the Co,
Fair: 8-30-35

Mr. P. R. Will Bill just a few minutes & I'll

say a few words. Quite busy had a do. off yesterday
& so far will not go to the field till after
noon, am taking C.M. to M., so he can go to
the sheep camp near Loda. & let the herder come
home for a few days. Will The mowers came
home last night & should have been moving on
see, crop of lucas in to do tomorrow. But the wire
had to have 2 da. at the fair so Sunday they
will mow & by Tuesday will have all done here
then son too a m. t. for J.R. & then then
the ditcher on South place first get my
catts in field & all moving right. Say I
kind of liking the job. of seeing to the
running. The old place But it is not
going to last for long I am a friend
I want to tell you that the right knee
went bad for 2 da's. But, by giving it - stung
treatment I've got it - back where I can
use it well again have chased the trouble
round all over my bod. and when it locate
I get it - on the inoove as soon as I can
some times 1 or 2 treatments does the job
& when it get - back to its old place it takes

For over a Mo. it has been knocking round
my hart; - So this morning I gave it a treatment
& am feeling much better. You see since
I had the fall & saved in the old cage over
the hart, & by the way the place where it broke
loose from the sternum it has not done a good
job. tightening up & the by side has quite a cave
in & makes a good place for the rheumatism
to locate if I succeed getting it out of there
I'll keep it going. I can draw my by knee up
so I can rub it while laying on my back
& ~~and~~ In waking I can use by leg quite
notural, nowise for so long has made it quite
useless & for that-reason I took a bad fall
the other day. But - as I get-over the lameness
it leave me to moove it more freely
& if the strength come as as it has done
in other places I be the gainer by the fall
It put me in the dumps for a day as I was
so lame & sore. I feel better & if I do as well
to do. by Mon. I'll just-be mooving on
again. looking after things J.R. will be
thrashing before Sep. 15th & I am seeing
my interest in persain & am taking your
advice. "Pushing the pencil for Bell")
I expect round 4000, bu. & I sure need it
in my buisness. W.C. & M.A. said the other

say they were willing to let anyone take
the place for 5 yrs. if they would pay taxes incl.
& other expense. K.O. is married & won't be here to
help me, Ed now is the time if you & J.R.
want to do something as you were talking
to me about. You can think it over & see us at
L.P. on the 11th Nov. & arrange I guess W.M.
& M.A. & I will be there. But J.R. will not as
he can't leave at that time for he & Norma are expecting
an increase in the family & can't leave, so he had
me just lately. You see when I came home I found
nearly \$50000 in the hole. I have done pretty good
& am getting on very well. Letting the damned
daring call off the place to the big job.
But they have got to go, and I've got to get all I can
so B.C. will have to be here till it is finished and
am not taking any ones advice any more on this
question & that is that I have the say whether I
live or die is, damn such stuff on this ranch
to have to clean up such a deal when all the time
I objected to it. This is the 4th time & none of them I
intended this law by me. Well J.R. just came in with
a broken robe on the binder and he will take W.M. I'll
not have to go so I'll fill the other page & fill
some more nonsense but now is the time to let
you know just how things are going & the standing
position of the ranch & things concerning
it first place there is 20000 ft. of lumber at the
mill to be sawed 7000 ft. paid for sawing & 13000 ft.

To be paid at 7²⁰ per thousand for sawing, a good
size job, for a young well man to take care of. &
a mo. ditching on S. place that must be done this
fall besides assessment work that is behind
schedule time. 2 or 3. Hundred to more of hay that
should & ought to be put up. Water going out
on S. place in new ditches I have had made
this summer & that is a big job, for a young man
and just think no ready money & the condition
I am in. Tral & d. United coming out & sheds to be
built & repaired worst of all I can't hit the
ball & do a good days work of 10-15 or 20 hrs,
a day as I use to do. The South place is the
best & most paying of the 3 divisions of the
place, and, just stop and think I am
soon to see my 76 birth da. In looking
back to the time when you told me I
should be pushing the pencil. Had I
taken the stand I took a little over 9 yrs,
a go. I sure would have been a head
several hundreds of \$, & even with the
board, I see I counted on things that did not
come my way & that is that & now I am only
wanting the time & I'll come back. I have now
got the place where it will go & make good
but, it must be worked out on my plan & no more
cattle building. The Muckley wood system
is going to be more grand than I have imagined
it to be. Well a lot of writing & not much said
so will quit & if it comes again to tell
you more will make it a little more clear
Live my love to Helen & little sweet home to you
Ed. W. Ryan

Single 8-31-35

My Dear:

Your nice and welcome letter here & it seems good to know you are enjoying your self fine new set of teeth and I hope they prove the best you have ever had and your legs & pressure keeps on mending till you are in condition to make the century mark you so desire ^{and} it seems you will win at least I feel that way, Well do you know you keep me busy ans. your letters I have neglected all others and ans. yours. Paulah, Ruth Bill, Dug & all others, because I don't feel like & just cant - write more Have a lot of good excuses But I must and there, to bad I've not done it - long before now will try & do so to morrow if possible. By the way I was M.A.'s & of course the conversation took some time as usual & while M.A. he seem to feel badly as he said that - you never ans. his letters said he had wrote you several & had never ans. one But you always wrote him on his birth day. Now he felt very badly I felt sorry for him. There seems to be a trigger in the wood pile, and ment - what he said. To night he is going write you about Jois. Be sure and ans. back & when you do tell me in your next. There seems to be quite a question about ones coming to L.B. to school this winter and I am not mixing in it at all. I have no time I am quite nervous & have plenty to do just at present. I get quite a lot of ideas about things - some very queer ones but it all has to pass for now at least. As I said in letter before I think W.M. & M.A. may come down for the 11th of Nov. & if Dug & Bill comes & Ida will be the and the rest I don't think will be there That is all the ideas & plans I have about the

M. G. Ream
Just hand to her
E. R.

Every body is working hard. all work & no play
By the way Jack & Norma & family are talking of
seeing a round Jan. 36. Hope they can they have
earned it well. & J. R. is looking old & crippled & tired
Norma works hard takes good care of her kid. & sure
think a lot of them she is hard to beat on
anything she is interested in. Look the very picture
health and I think you would like her if you were
here & seen her & get in touch with her in her
every day life. So bad you did not get up this
Summer. We are all disappointed at turn of
things. But it seems it is for the best &
maby by another yr. you can come if you don't
load your self down with to much by having
to many round this winter this is up to you!

Well I am tired so will wind off
The fall I had the other day has made a little
more nervous. Have just laid off & only drive
to the once a wk. & today I've just been in
all day, just got more than I can do & I
know it but, just keep on as long & I can

Give my best regards & Love & mention to
those that are interested just forget & save trouble
& time This all I can stand to night so
Good Night Love as ever R. Mill,
