My Dear girls

It is 4 P.M. and very warm
more so than usual + to, reports it was
last 4 to 6 wk the Sun seems to have
more effect on me than I ever remember
It puts me in mind of the Summer
that J. W. Crockett was married and I
commenced cutting Lucern on the 21
day. Well times have changed a whole
lot. Well right before last Dave Kege +

Evon and wife call for a few minutes
They were on their way back from
the East. They mentioned on calling on you.
They seemed to have enjoyed the trip.

The many places of interest they saw
must have opened Dave's eyes. Trip like this
is sure a nice thing to take. Paulah offers
you and I one to P.O. and a nurse to
go long. Now it is out of the question for
me to except it. But, it would be nice
for you to go. If Mrs. Johnson made it I see
no reason you cannot do as well as they.
Think it over and select some one that can

To go with you and go I really think
it would be a successful trip for you
and Beulah would come home with you
I sure would like it she could and would
come home if only for a visit I have all
I can do here & am not going a head as I
should, just started to late.

Well those pictures of you & the
one of Roxy look natural & I am glad it
is so I you can have as many flowers
as you have, you love them well. The
flowers here are very good considering the
time & deal they have gone thru I'd
put a rose bud from the rose bush near
the gate that has stood the treatment time
& lived & cleaned it thoroughly & it has
done fine just as full as ever you can
a bush in clusters of five. The yellow rose
did better than ever & some can be said
of all of your flower that remain
What all I know about you & place is
all you have told me as Jean 40 or 50
to try to get the sum of things and all
got was uh-hu² uh-hu - uh so the ist²
Lais about the same only in this way
"I guess I should not have to you &
what you might is about all I get just
guess at the res-dove to odd at that you will
