

a little paper here so well use it. I will write you again soon. I am
well. I and the kids are looking fine. She was pleased with school & the
of stuff. I suppose she will write soon. Was glad to get Helen's letter. She got home last
Sunday. I did not see a single kid. I know did not come over this time. I am at school, over

Well the news is junk. The Crooketts are about the same. Will looks quite bad, his eyes are the worst and his speech is not so good, quite hard to understand and he walks much slower. Linsan is quite important. He came out of the store as I was sitting in the car just looked at me for a moment and strutted up. St. home to dinner. I went in & was sitting talking to Will when he came back & he just walked to the block & got busy. Dora was very nice more so than usual. Vera is in town but I did not see her or any of the rest. - yes I did Dora's step son & Mildred came in. He swept the store a big fellow but Mildred has not got on much. Dora said by was not very good. They never hear from Frank & Ann of ten. Will about the kids here. M. W. is working in Paris for the Government. drafting and M. A. is doing field work. He has Ras. Nelson helping him measuring wheat land that has been signed up to the Government. Mamma and kids are at the lake on vacation & M. W. & Her kids are too so. When I am very busy M. A. & sheep camp every night & all the rest of the see too but he is looking well so is Masby. Jean & Helen look just like they had never been away from the farm. So the game of life goes on. We win & we lose mostly losses, 10 min. & 10c & the boys have not come in for dinner yet they are working on stacks out at the shed will stack to morrow in home place if all is well. Will I'll post this after dinner so will quit. I want to ask a lot of questions but no space you know. Tell me all about you self & how you get on. I am sure she is fine. I will write you soon.

AFTER FIVE DAYS RETURN TO
