

## ST. LUKE'S HOSPITAL

MANILA

July 16.

Dear Dad, I was glad to get the letter you wrote just before leaving for Iloilo. I am ashamed of myself for not writing oftener but it seemed that when the heat came on I sank into a decline as far as writing was concerned. I didn't suffer any ill health but just completely lazy. I never have had time pass so quickly as since I have been here. My two years will be up before I know it. By the time you get this I'll have only about 2 1/2 months to go on my year's internship. I suppose you will still be in

Idaho as I'm residing this there. Don't forget  
to write me all the news. I don't hear from there  
very often but suppose they are all well. It must  
be a busy season there now.

It seems that now days that where ever a person  
is or what ever they do they are working for nothing  
but from the way flour & meat is going up there  
ought to be a better market.

F.D. is very much pleased at his new job and  
it seems that his new boss treats him with more  
consideration and intelligence. He has charge of a  
new bus company - about 85 busses. Mr. Marsman  
(the boss) asked him what he intended doing when he

got in charge and he said he intended looking things over thoroughly before making any statements. That seemed to please him.

Baguio is a lovely resort in the mountains with almost temperate climate. It will be good for the whole family and there is a nice private school for Mrs. I probably won't see them much often than you will from now on. F.P. may come down once in a Croon's age but I don't expect Ruth & the kids ever. If I ever get a vacation I'll probably go up there for a few days. F.P.'s Pan took him up by plane & he

quite enjoyed the trip. Ruth & kids went up  
by train. The Company is planning on furnishing  
them a new Buick car for business and  
private use. I hope F.P. gets in line for some  
good investments.

I'll probably miss them running in for a  
few minutes now & then but I'm so busy time  
does not drag at all.

I won't ask a lot of unless questions but will  
expect you to tell me all the news and maybe  
stimulate the others to write now & then. Tell Norma  
the coat I was to have sent was given to Ruth as  
she needed it in the colder climate.

Hope you are well & not having much trouble  
with your rheumatism. Love to all  
P.S. how do you like the 2 new grand sons? You loving girl Beulah.
