

Hell Oh, to every body!

Sunday 23-33

My Dear Nora:

it is now 9.35 P.M. and KD has gone
to bed & I should be but - have just - gotten up
and had a cup of tea & a bite & don't - want - to
lay down for a while. So will tell you what - we did
this afternoon KD put a tongue in the trailer &
a box on it & we went - down thru the home
place & over Duaybs to the Ocean Wave thru the
Larson & Murkley places & looked at the hay
It sure is a crop & needs cutting right now
not many flies or kites & the drive was fine but
when we crossed bolls & ditches I some times got
a jerk on my hip & side that - made my eye yell
we decided to do some more haying home
& then - commence on the Murkley near the
lake & work home. When I got - back I
was tired & my side & hip hurt a plenty I
walked from the shed to house laid on bed
& slept till 9 O' & now I've just - had my tea so I'm
ready for bed soon, just - 4 wk to do, since I
got here and I've not - made the bed once KD
did one when he washed the blankets so the
rest of the time it has gone but, I feel well &
not under plenty of cover dress myself
after a fashion & I have a quite a time to come it

Have been round a lot since the car but it is hard on leg + hip. Mable has a hired girl helping her now + she is looking well + big + fat baby is sure a fine baby + very good + you can guess the rest - Mable is quite interested in the girl club as she is the big it + it takes quite a lot of her time. I am thinking Norma sure is a worker busy all the time carries her baby when he is not a sleep + goes all the time quite a contrast + he is sure a fine baby + as good is as one could wish. Little Denis got her hair caught in the coffee while J.R. was changing it + got her middle finger caught + may lose the nail cut the thumb too they took to M - + got her hair to dress it. At supper she was eating with her left hand (she won't let anyone feed her) she said I got my right hand hurt - hurt - but if I got this one hurt too it would be too much. She cried very little has good nerve + you will have to hand it to her she sure is bright + wide a wake I think you will like her. Will K.D. has some money that he will send you soon to come up on he wants to see you + so do the rest but money is too scarce to even think of let alone to get. I have a bigger question here I dreamed of + it is going to take some time to handle it. I try to mention in a letter + a big sub. to talk of when you get here. Every body well + it is sure warm now M.W. have been just 25 mins. scrubbing this + not much said. Dora C. is a big woman you will be surprised she treated me fine. Wish you were here to night. K.D. joins in sending love Will
