

Dingle

Oct-31-31

My Dear Nora:-

On my return from L.N.S.  
Your letters Beulah's & Helen's letters  
here. So yours is the first to be done.  
Sun shining & the day is going to  
be fine. K.C. has gone to the Hills. J.P. is  
finishing pouring concrete on the big head gate  
just west of the house. The largest in the canal.  
This finishes all work to be done on this part  
of ditch this Fall. Now the work commences on  
The 222 S.B. next wk. and it is hoped that  
that it will be finished soon. J.P. is doing some  
good jobs it is good. The boys are working hard.  
K.C. has sown 30 acres flounders left. Have time  
in the Holstines, a fine Bull calf. The turkeys  
are growing the best ever a fine bunch. Will  
not market till Nov. 30. The Pool-had decided.  
I have had a small crop of potatoes & have seen

and have heard nothing as yet.

D.K.D. miss you very much, he plowed all day yesterday not stopping for dinner comes in late at night - Rodney is working very hard neither is feeling the best - Mamma + Willie came up the day I left - for Lova she got the sheets + some things to wash, don't know just what - have not seen anyone since I got back guess all are well, Little Denise is fine + getting a

fat and so on, I talk + says delaney + her + seems to be wise to all that is going on.

A wonderful kid + they are proud of her + should be. She promises to develop in to a good woman + so far they seem to handle her very nicely, I should say a good addition to their family.

Times no better the boys have been offered up for their sters. I don't see just how we are going to get by, low stuff is just as bad. Your little fellow is still just what you left it I now make the bed so just leave it there it makes me think of you every time I see it - here is where I put paper gone + I've 15.00 + 10.00 + ans. Beggs and have a nice time too to all + double + and to you Will,

Monday Morn.

Nov. 1 - 1931

My dear:

Just a line before going  
down to mail. Nice sunny da.  
K.H. is starting his engine to go to  
work. R. finished the big gates <sup>last day</sup>  
and the new one, and first of which is  
favorable. Will get Soda done da.  
this wk & if I can arrange may  
get off sooner than I counted on  
Frost made every thing white  
last night. I had quite a bad  
night last night - but feel better  
this morning. Am glad you are  
having a nice time and everyone  
is well. There is no news to tell

Have you heard from L. B.  
lately and how they are making  
it down there?

The boys turkeys are as fine  
a bunch as I have ever seen  
& they will be soured by Jan,  
that is the time they intend to  
sell, and something of fine  
price. Will you have had a nice  
visit and I kind of wish you  
were here to visit me till I could  
get off to go. I think it might be  
nice if you go when you wanted  
to & stay as long as you could.  
This money question - sure has us  
all to the bad.

Love Will,

RETURN IN 8 DAYS TO  
MRS. N. E. C. REAM
