My Dear Nora's

yours at hand last night and we (Ida Ruck and I) were glad to get it and to learn that you had a good trip and was in plenty of time I sure feel sorry for Wesley Mammie and the Kiddies and glad you went. They must feel glad you are there I would like to have been there to, but they know the reasons why. The more I think about Lane the more I feel for them. I hope all the rest of the folks are well & keep that way and that you have a good time while there and not get sick your self. I am working a little every day, have the back yard in good shape. Hoed mowed and cleaned up also watered to boot same in front. I fixed Wright's mower up in good shape and he mowed the front & Alace mowed the back of theirs & I got a man to mow our back for 25¢ while I did the mechanical work so it come out OK. and all looks well. The machine is a good one & runs easy & does good work. Every thing is growing fine. The Juliett is blooming not so large but is beautiful all rose are fine. You will have been gone 1 week in the morning. time flies & how every thing has grown. Have cleaned up the chicken pens & hoed

them & they look good I get up before Sun up & move round a
little to day I am just setting round & writing a little I
am hoping you enjoy your trip. Had a letter from B—
and she was accepted at the Co. at T.A. but is not going
to take it, and will remain at Finsco. She could not get in
till Nov. & could or would not wait. While writing here B. P. G.
called up and Ida ans. you see I wrote him about the check
she opened the letter & raised Hell. I wrote him in such a way
she did not need to know about it unless he had put her name
which he must have done. She just busted all night last night
so he said this morning. Well he should have done as he said
he would & she would have been none the wiser. He told Ida
he would give her some money next wk. and did not need to worry
he had the check (Why the Hell does he not send it) It seems a woman
got it back & took it to them & she got it and he lied to her about but she
got a hunch & just busted. Well it is their trouble. Well all is
the same as when you went. Rickie improves every day & Ida is not
feeling so well the way Bob does. He was at Owens mouth Thu. night & is off
to day, plays ball at Sbc. to da. by rustling I'll get this off this morn.
I would like you back when you feel it the time to come & told
B. was here Mo. and is released going home Mon. gives his fair well talk
Sun. wanted me to come & see him. I told him I knew what he would
say & did not feel like going. He agreed it would be the last time we
would meet so shook hands & he went. 2 lady's had him in a
copa taking him round so that is that & I am glad it is at an end
with him he got to be a boar with me. Give my love to all tell them I would
like to see them
Love as ever
Will
in a hurry
