My Dear Girl:

Yours of the first came yesterday
It was quite a cheifull letter and I was glad to
get it It is quite nice that you can stay at
Ada's night and home days and have a change
of company. I suppose Dick being quite
bright & likes to talk a lot - he must be quite
interesting and when he and Wilma agree then
we will some what related to the Wrights -
they wont be a bit a head of us as we have
the duplicate in our family and you
know families more less bind friendship
Well we have been having the regular Sep. 4th
frost got everything a bout the 4th.

The weather has been very nice since cold
nights and very warm during the day time
Haying most done also harvesting & some
thrashing and winter is soon here and at
night I feel it very distinctly. Every body
well and school here in 2 night starts next
Mon. There is quite a stir about that
petition Ada & I started I am looking for
J. M. Wright here any moment he called at
noon & said he would be over by 3 P.M. He is
coming to see a letter I got from the P.M.A.

from Portland Oregon It look like there
is quite a good interest taken regarding
it. I hope it will be gone thru with if it
does it will be a good lesson that districts
schools all over the county will learn & the
fellows here will not bother about wanting
the job a gain very soon. It may get
serious with some if it is pushed to a finish
which is more than likely will be. it looks
that way. It will please me very much as
is the medicine that should have been
give years ago. and yet it may all die out
and nothing come of it.

It has rented the place from Quayle
Jew & will put a woven fence from corner
of lot & follow to the ditch to the hill & put
a bunch on N. side & one on S. side & have
them all here at home. Cullis & Hospital will
be West across the in 2 separate places he
has it nicely arranged & 10 000 bud does
make a sight all fine lookers too. I hope
he makes a lot of doe off them he sure
has earned it. Well am at bottom

is that Will tell you more next time if it
is not too long. I forgot had a letter from
K. & 2. pros of last year of a finished one. Now
has written me & wants to come to the in
when he comes next year with me. I will
send him a letter by the way & will
write him all the time.
