Dear Mather,

Was glad to hear from you and know that all are well down there. We are doing fine here. Will have the seeding all done in another ten days if the weather stays good.

We have put the cattle (Dado cows) in the Peterson place and will be taking them to the hills before long I guess. The grass is good in the bottoms and will soon be abundant in the hills.

Had a letter from Ruth the other day and they are well & happy. Her sister Helga & hubby are taking a trip around the world. They must be in Seattle now. I think they intend coming down there before long.

Tell Dad I will write him soon when there will be more news. Love  
Dad
