

Friday Oct 13. - 1939

My Dear Will

How are you? Will &

hope - I wonder if it is hot there
like it is here. We have had
4 days again of pretty hot weather.

I got a letter today from Nora in
Baguio. It was addressed to both of
me but all written to you - So I
read it and will enclose it in this
for you. I had a nice letter from
Wesley the other day and everything
seems O.K. up there. Emeline has

a baby girl. You know she had
3 boys - It is nice to have both
kinds. W.W. was not quite done
cutting grain or planting as
the storm had hindered some.
Ida has a real bad cold but

she did not stay out of school.

Beulah Lee is out with a cold.

Thank goodness my garlic keeps
me immune from colds. It
should be good for a lot of things.
Lindbergh will talk over the radio
to night at 6:30. I will listen
to him.

My Roses are looking fine for
this time of year.

Give my love to Milton and
family

I hope you get to feeling so
well that you will soon be coming
down here. Do you see Mrs.

Koosneck?

Lots of Love

Nora.
