

Oct. 8 - 1937

My Dear Will - This is a lovely day to say. The sun is shining and everything looks clean and green after the rain yesterday. I surely intended yesterday to put in the day in the yard making it look clean and nice after the growth of weeds and fall of autumn leaves since I came home - for a time it was too hot to work outside - then the storm etc. so things got the best of me. So I had planned to do a lot of belated work yesterday, Well when I got up Sat. morning it was raining - and continued to do so most all day so I did nothing.

At noon Ida came and took me
out to her place for dinner and to
spend the afternoon - which I
enjoyed very much. Bob was up to
L. A. to the foot ball game. We had
a nice dinner - a nice afternoon
then a nice ride home. The rain
had ceased by that time. This
morning ~~morning~~ I have been
listening to the ^{ing} Ring of the Tabernacle
choir and the conference services
that followed. Apostles Witness's
sermon was grand. I enjoyed
it very much. I remember him
when he was just a young man
working hard to get an education.
I knew his mother who was
a dressmaker working hard to
support her two boys. She was a
widow. They were such nice people.

While I listened I sat on the foot stool backed up against the big window. The sun surely felt good on my back.

I have not heard from the ranch since you left except you have said that they were well. I think I ought to hear from some of them soon as I have written to most of them - I may hear this week from Beulah too. I surely do watch the mail box.

I am feeling real well. Had a wonderful night's sleep last night which makes me feel more peppy this morning. I hope you had a good night too. I

have a feeling - You must be
feeling pretty good too as the
world and everything seems so
good to me today.

So, by the radio I learn that
the Worlds Fair at S. F. closes
on your birthday. I hope you
get to see more of it - if you
would enjoy doing so. You
spoke about Mabel and Ruth coming
down for the fair. How and when
are they coming? I have heard
nothing except what you said.

Ida and family are well. Ma
Shackett went east to her old
home last Wednesday for a visit. I
don't know how long she will be gone
went on the "Limited".

Lots of love and good wishes to Milton and family
Greetings to Kitty Love Nora.
