

Sat. night 6-21-38

My Dear Girl

I got both your letters same mail and it was good news to me as long as you are well & are having a good a time as you are that is a lot of news & good too I am some ways I am better & others <sup>are</sup> so good the truss is fine and I have no bother can go round a long <sup>time</sup> between any bother and I never have have then awful sick spells I can eat well & much so I may be gaining a little but I must have some strength. B O & K O have guns <sup>now</sup> every day & I eat very little. Have been busy all day in the house & down with K O counting logs & poles while he is filling to load them from getting can't get a man yet & I saw that everything is going not so good I am a whole lot more nervous than I have been at times so it is not so good It has been raining & snowing every day for the last w.k. but everything is growing fine & a good crop is expected. But we

have all in yet. I imagine that your  
stuff must look good and augh  
& matter well & large, plenty of  
water will do the trick. Tell me  
when you expect to start - & I'd like  
and the new, J.R. will have 600  
potts soon & he is working as hard  
as ever so is Tom & all are well  
Kids all are good strong & healthy  
all but J.R. & he sure does not look  
if Marnie has my bed & will  
keep it till the first of Oct. then  
she will have the cast off & I hope she  
has a good job. She can go to bed  
and be wheeled all round room  
& to the phone she calls me up every  
day since I got the phone in  
Mon. The well drillers will be here &  
put the well down in about 2 1/2 days  
Just had window in kitchen & have  
not done much so far but hope to  
to get more done the next 2 wks.  
If I but can keep well I is now  
or never by me. The quitting is soon  
coming for me & I see it without doubt  
by me & so they damn it better & just  
send love to you in many will
