My Dear Carl:

I got yours 3 in 1.

quite interesting, and as I have a little time I'll ans, as K.D. is milking & as soon as he gets thru we are making a call. He was to have W.W. start on his grain today but he had a break down & will not start till tomorrow. He is getting on fine & feels better every day. If he but could get a man he could make his work move OK, as to me just the same. Have got to get busy regardless. Am expecting B. & here before long coming via Portland & Spokane, Boise.

We are having quite cool nights now, but, no heavy frost.

Mable not home yet, & P. is working hard has quite a little help. He may be off to school by

time it starts. (S. L.) as I am
guessing. Don't tell it for facts
its only a guess.

Tell Ruth I'll drop her a line
soon to her read this all
same as I would tell her
Tell her the foundation looks
swell, a good job & K. L. is
doing fine. He will soon
be at the apples.

All Crab's folks will have been
& seen you by the time this
gets to you. Hattie is with all
stayed over night. I think Crab's
wife are swell, quite an improve-
ment on the Old stock.

Will make final prog. S. L. on
Lake. Hope it goes well.

By the way I bot an electric range
to be put in next - may later in addy
how I can get the use of the gift. B-
brot. it is swell. She baked one pan
of biscuits - good. Give my love
to Ruth & family & love to you.
Will

Frid. Dec.

Well I forgot to tell
you to get - all of my
letters & papers & write
together and send by ^{the} parcel
post. Don't omit
any thing. There are a lot
I could get a long with
out but no one can tell
what it is so send all
and as soon as you
can. Well This morning
the Electric man is
now putting in wire
and connecting for a
range so when you
come home there will

a 1938 late range instead
of the old — I hope
a refrigerator also

I am now beginning
to move to try to
do a few things I have
been wanting all
Summer, hope I can
start it

R.D. is sending a
sheep to Ruth so this
all now

Ever Love

Will
