My Dear Cub,

I just sent a card to Ida a few minutes ago by Bill, He da off but he had 9 calls to make this fore noon.

Will he talked with Rodney & the last night. He is down with a cold and quite bad. Som. sent a letter to Brown regarding J.R. & some other things and I hope all will be well. I wrote letters to them & hope it will brace them up a little. I guess it's gonna be all right with the bad luck they have had.

As to my case I guess I had a pretty good guess on it. & I do hope it is in my terminal will go to Texas today if plans can be arranged. I was like this Doug & wife flew to Boldo day & I carryover. got home soon. Bill called to talk to me up. late evening. I ans. said plain that he would tell Doug when he came but he did not & yesterday he call & I res had said nothing but in the mean time had come

If contact is made I'll have to go  
over to Lanes for an exam. & if he does  
the work I'll have to stay there indefinitely  
at present don't know what will come

So far no treatment I take on my  
self to do, first since I left L.B.

Don't know what is what - as yet  
Prospect - not so bright - Delays  
have done the trick. Look like Kennedy  
will not take a hand as I see it now

Have not seen or talked with her & if she  
does not I sure will be disappointed  
and miss out too. To day is a bright one  
and it is good some things are bright

I hope you are well & happy and  
if you see Nellie tell her I love her  
gets better everyday I am & all the rest  
Hello & love to all my friends

Now to you Take care of your self  
& enjoy your flowers & clubs a lot.

Good Bye & Love Will,

Thursday

you during vacation & maybe Luciel  
They said something about it.

They had a nice trip & got a lot of  
pictures of Sam & lake & above the  
clouds. Had a good time. Will start
