My Dear Girl.

You don't write very often
but a line to tell you I think of you
& kiddies as often as any one else
you see when I get to thinking of
any one I go thru the bunch & give
them all a once over

Now just when will your school
be out & when do you intend to
start at the old home you know I
I will be looking for you I have my
old fiddle just as good as new & we
all can take a ride. Am expecting
to get a letter from B - every da. Had
one from Ruth and she said she
B - was doing fine & was up & see
them all was well from John & the
head of the family, I was off for
12 da. Hunt with Blows, was better
than for a many yrs, since he had
all of his teeth out

When you get here I have a
lot of things to talk over about
the old place, seeing as you have
an interest in it and I think this

is my last summer to work on
it. He pulled down 2 big trees just
N. of the 2, you + the rest seen
pulled down when you were here
The flag pole & the rope is in place
QR + PR will help pull Old Glory up
this next 2nd of July - I hope
many of the family will
see it hoisted many is the
times again & again. That it will
go up by some of the recruits
I am not getting as much done
as I counted on but I am
doing my very best I don't
move as spry as I would like

But I am looking for another
fire ride to La Jolla I sure do have
a good time The Stewardess - was
the finest ever gave me her coat
picture and asked me to write her
at Francis Drake Hotel - I of
course will tell you all about it when
you come till then I by the way
a cracker jack letter from Hilas
DeCov. She caught 5 trout with her own
hand & brot them to me - fine & good to
hear about - but I claimed something
Every your truly 1000. QMR.
