

Dingle, Idaho
Feb. 1941

Dearest Mother,

I have been thinking of you a lot these days, and am so glad you are feeling better after your cold.

He are all much better and are working every day.

Luella doesn't walk alone yet (at least she doesn't think she does). She is so sweet and can say so many things. "Miss" is her latest, meaning dish. She says "Kago" for anorak, "Indjeiti" for pretty. She notices every different dress I put on.

Ken shot a coyote the other day and skinned. He sold the skin for 4 dollars.

He received a Christmas card from Benlak - all the Keasne did. He thank you for your card with its merry greeting.

Norma comes over here occasionally with her baby. It is very sweet and Norma seems so happy.

The weather is beautiful every

afternoon - the sun shines in so bright and warm that we hardly need any other heat.

We have not heard a word from Milton and his folks since before Christmas - rather, since he called by telephone. We wonder how they are.

There seems to be plenty of snow all around. I am making splendid use of all the caps, sweaters, and blankets that Ida gave me last year. I bundle the baby up and wheel her on the porch.

I took a picture of the baby on her 1st birthday and shall send you one. She is holding the doll Ida gave her and has on "Ida's" dress.

Ken worked for Rodney keeping time during turkey picking. She had a nice turkey to roast.

Everyone seems fine. I saw Mamie on Tuesday when we went to Relief Society.

All our best love - a big kiss to grandma from Lenella - Ruth, Ken & Lenella
