

Bayun, P.I.
Aug 23. 1936.

Dear Mother -

Kenneth and wife are probably just finishing a long visit by the time you get this. They left here nearly a month ago. I wanted to get down to see them off but at that time we had a serious accident with one of our cars and I couldn't get away.

I wanted to take Kenneth out for a few days into the barrios to see real Filipino life but it seems he couldn't leave his wife long enough "Ain't young love good". You see in the whole time they were here they didn't get away from most Americanized part of the Islands. It would be like some one spending a year in Chinatown, San Francisco when they should have seen America.

All of the kids and Ruth are

in perfect health. I also except for
the fact I will probably be getting a
complete set of teeth before long. I am
leaving the family gossip to Ruth who
is more given to writing.

Enclased is an advance
Christmas present. We have been doing
a little better the last few months. If
our luck holds out we might come
home next summer for a visit anyway.
Love to everybody -

Fabian
