

Nov. 5, 1939 Baguio.

Dear Grandma Rasm.

I received your letter telling of my mas' visit to you. It was so nice I sent it back to her. Helga sent me a letter telling how well mother looked and how your advice had already started her blood pressure on the downward trend. Xmas is approaching and as usual I've made no preparations.

I guess I'll order soy and underwear and skits from Sears Roebuck.

The children don't care for toys -

now they are all playing paper dolls - make the outfit for them selves.

Fabian just informed me he gained 4 lbs. last week. - so I guess he is putting up. He says his last boils

were abortions. So I guess the
jig is up with the boils.

I'm sorry Grampa Roam was taken ill.
It must be tough to have such a hard
time getting around. It would make one
awfully impatient.

I am glad to see a general trend
against U. S. A. getting involved in war.
It does seem rather hard tho to see a
good little country like Finland being
picked upon. I'm in favor of transferring
all the Finns to Alaska - and let Russia
have it. Isn't that a wild idea?

Sam and Paulah & Lee (I hope) and
Nell. are coming up for about 2 weeks.
this next week. I'm a little afraid
to have them come - for this reason.
I'm growing my hair long enough for

a permanent and Kate and
Sally each cherish a long bob -
Well Sam will never feel
comfortable until he has us all
shown. I can see him now
following my neck line with
his eyes. Fabian says hillstick
by me - My hair right ^{now} is in
the height of fashion - which will
have no effect what ever on
Sam.

I'm glad to hear Gemella is with
her man. I hope she stays there
and accommodates her self to
Kenneth's way of living. They
two seemed to have an awfully

good time together even tho
she required a heck of a lot
of waiting upon. I've often
wondered if the "worm would
turn".

I hope the heat wave subsides -
in your part of the country. I guess
my ma likes the heat. So do I -
I dress like winter all the time..

Love to all
Ruth.
