

the usual Peam fluency of
speech.

I hear Nellie Croag is at
Bulah. I haven't met her as
yet. I can't remember whether I
met her at Mount Pelain or Salt
Lake City long ago.

Needless to say, we never hear
much news from any one -
Is Genella teaching this year or
living in Dingle? She hasn't answer-
ed my last letter - and how are
Norma & Rodney and their children.
Bulah talks so much of "Roger".

Baqvis Oct. 10.

Dear Grampa Peam -

Well Helga & Theo left this
A.M. on the Honolulu Clipper -
I guess Helga will visit at
Long Beach while her husband
dashes on to New York. My
mother is staying in Los Angeles -
for the time being to see if it is

warm and sunny enough for her.
Norris' teacher asked for your
write-up of Mt. Palomar trip -
so it was read by every one in
the class. It is very well written -

In this young picture he looks so much like
my Bill.

I have a house full of kids now. My 4
and Rowden and Nels's three living up-
stairs. They have a swell time to-gether.
Such a noise of running feet upstairs.

My kids are getting along beautifully with
their music. They love to practice - and
each has duets with the others in the
same stages of development or with
one if they don't match up with
any one. It's a great life - How sad
not to have a house full of children -
No wonder some people play bridge all
day long - as they do over here.

I hope you are fine - and best
regards to all - from

Ruth
