

Sep. 9, 1938.

Dear Gramma Ream.

I'm just getting our birth certificates etc. in order. I wonder if you can send me an affidavit to the effect the Fabian was born, date, & place.

We are all well. Fabian still a little thin. He needs a new set of teeth. His present ones bother him so he can't eat much. Fabian too should get out of doors more. How can I get him out? He doesn't have time or money for golf - and isn't interested in gardening. So there you are.

My mother writes she too has H. B. P. You should write some advice as to diet etc.

I went to Manila last week
with Fabian - Beulah looked fine.
It doesn't seem to have made any
difference in her practice - her
having lost her figure. She helps
people mentally and physically
both -

Why doesn't Gemma get a job
teaching in Dingle? She really is
a born teacher. Then she can
be with her pap. I think she and
Kernath are such good companions.

That makes up for everything
else such as no kids etc. I blame
Gemma for insisting on their being
together in everything

Much love
Patt.

This 50¢ is for
afidavit.

Please send me what information as to what you
pay for affidavit v. 94
