

column I got more and more  
out of the motion - I'm the most  
stay-at-home woman in this  
town. Children deserve at least  
one parent to watch over them  
among and the acquiring of  
rugs, dishes, etc. don't mean  
so much to me as being  
sure my children are safe.

Sally was operated upon  
this a.m. She had a large  
lump she got when cutting  
her eyeteeth. Under one cheek  
it was full of pus. She had

Baguio.

Dear Grandma Rose.

I want to set your mind  
at rest if I haven't mentioned  
this before. and that is this.  
the <sup>business</sup> work idea was just a  
fancy - I'm occupied every  
minute as it is - where in  
could I squeeze any work. I'll  
let Fabian earn the living. I'm  
a follower of Dorothy Dix. and  
every time that I read her

30 4 on her head when cutting other  
teeth so I expected pus. Some of her  
circulation must get cut off when she  
cuts teeth from congestion. She has no  
other symptoms when getting her teeth.  
They gave her some sleeping medicine  
but she woke up and cried heartily  
during the operation.

I was in Manila one day - with  
Beulah and disgraced myself as  
usual at her party for Dr. Sternetz.  
I always feel nervous after all parties.  
I wish I could sit in a corner and  
say nothing & do nothing then all  
would be well.

I flew down - 45 min to Manila.  
You should go up in a plane some  
time. You who have lived in the  
day when flying seemed impossible.

Lots of love from Ruth.
