

Baguio. April 27.

Dear Gramma and Grampa Peam.

I've really heard from you having read
Beulah's letters - and if it is tiring to write -
I'll consider mine for Beulah mine yours too.

I'm sorry Gramma Peam was ill, and
I know ^{she} is lots better now. I'm sending

a bunch of pictures for your album

The duplicates will you give to Ida.

The one she sent of Pitki on his pony is
very nice. Thank her for me. Nora is
keeping a cousin book. She has quite a
collection.

Helga just departed after a stay of
3 weeks. I believe they like the warm
country best. Her children had colds, Helga
too, during their stay. They were a sorry
bunch and happy to go. My children are
self-reliant and sturdy compared to here.
An amah and too much sympathy can
ruin children to my mind.

Of course we all have our own ideas - but
I like to see a little wholesome discipline once
in a while. My family could kill me off in
a short time if they didn't respond nicely
to a word from Pa & Sara.

The children have all had their hair trimmed
since these pictures and look more human
also - they'd had their hair oiled -

Fabian has had a cold - is better - I must
have him have his teeth x-rayed or pulled.

They are having anti-independence
meetings over here now. I hope U.S.A. just
gives them P.I. a good spanking and lets
it go at that. It should be an
international question instead of being left to
the senators & P.I. politics.

Fabian designed this trailer. He is sitting
on the back seat.

Lots of love from us all.

Hoping you both are in good health.

Ruth.
