Dear Mother Team,

We have not heard from you (or any of the family in California) for so long - we are very much concerned how you are. We hope you and Ida and family are well. We are thrilled about Ida's new home and wish we might see it. Rodney had hoped to be able to get away for a short visit with you this winter but that seems to be impossible now. He has the mumps - has been in bed a week now. His left side was painful and very swollen. The right not nearly so. Now the swelling is leaving and we hope for no complications. He will no doubt have to be in bed another week. The children are doing their school work at home so they will not miss so very much. I hope they cases will be light & not too strung out so they may be back in school without too much time lost. Love from us all, Donna
