PETERSON ARMY AIR FIELD  
COLORADO SPRINGS, COLORADO

Dear Grandma,

Thanks for the nice letter.

I went out duck & pheasant hunting the other day and had a lot of fun but not much luck. I just had ~~2~~ 2 shells & they lack the power that is needed. One fellow got two ducks. One on the sit and one on the fly. He had a better gun.

We didn't see many pheasants. I had borrowed a double barrel & had some trouble with the second barrel. So I decided I would put one finger on each trigger & thus be ready with both barrels. We jumped a pheasant and I shot both barrels at once & the other fellow shot. We finally got that one the only one we got. I am hoping to go out again soon.

There is a lot of big corn fields around here and a lot of Rhearonts.

It is looking like snow now. It has sure been cold & there was a lot of frost this morning. Some of us went to York last night and had a nice time playing records dancing & playing table tennis.

I am not much good at table tennis but I am improving a little.

Our barrack passed inspection pretty good today.

We sure had a train wreck here last Sunday. A freight 116 car ploughed into a local passenger train. Practically demolished the club car & caused several deaths and bad injuries.

I'll try to write more later. but good by for now. love to all.

Your loving grandson, Jean
