

will be beside some red roses - I hope I get my chest tomorrow when I go to school I really need it for my flat bustled its a pity -

What I'm going to do after May is a real problem - La Yar wants to sew it for me but I can't do that - something tells me I was designed to be a typical old maid and I reckon I will be -

Olga Lick had diphtheria - and the Birds had scarlet fever and Skilark Lindsay had double pneumonia - and just about every body has been sick so I don't feel quite such a party wretch.

All our love to Grandma and the rest but especially you two - Dad and I'll skate soon  
Love  
Alice

7.5. Please  
and the children  
of that kind  
where we  
make up -  
she wants it  
some body  
love of her  
Dearst I. & Dad -

January 31, 1944

Boise, Idaho

I've been last Thursday I've been lying around doing nothing but sleeping coughing - swatting my throat and being generally disgusted with the world. I feel better now - I wanted to go back to school today (I can just see A.J. teasing his hair) but the doctor said I'd better stay home one more day but I'll be back for sure tomorrow.

I thought I would get a lot of reading done and write a lot of letters but I just haven't felt like it and nothing I read seems interesting.

La Yar called last night from Salt Lake - he is being sent back to Oklahoma - the only

By the way Charlie was rejected  
all around and is going to  
California to get a job in defense  
I guess - if he comes down  
there I'll try to find out and  
give him your address -

The pump seem to be  
working all right now - though  
the switch is broken - a stick  
holds it in place and its even  
automatic so we get along fine.  
Mom has been doing the furnace  
alone but I'll try and relieve  
her tomorrow.

La Pa sent me a complete  
set of Navy gold buttons like on his  
suit and I'm going to design a  
suit to wear them on. Any suggestions  
Heller sent me some money to buy  
something for Thelma for her birthday  
and as I get I don't know what it

shore station issued to any of his  
mates - He writes all the time very  
interestingly and I just don't  
know what I'm going to do with  
those two boys - Carl is on a  
trip which will last several weeks -  
I don't know what it is but rather  
imagine he is flying some big  
guns about the islands for an  
inspection tour - He seem  
to be enjoying this more than the  
routine work at the base though  
he says as yet he has found no  
typical South Sea Island with a  
Dorothy Lamour and all - Maybe  
he will though - Charlie said  
that the natives were beginning  
to look pretty white to him or  
as he put it he was getting a  
bit color blind - and he says  
they were really beautiful.
