

4.
a case on her.

I sure would have liked to see you when you were here at Christmas.

Why didn't you come over - I was sicker than a dog with the flu, but I could have talked to you at least. Are you coming home this summer. If Helen comes out this summer I expect you to send her back for one more year. Then I will be through. I expect an answer within a week or

Love

Colith

P.S. The only one that is glad our that home running course in Coach. He don't have to stop out fights for 5 minutes -
me + my sharp

Pa,

How is my old friend? I'm beginning to wonder if you are my friend. The last letter I received from you was the 15th of April in 43. I wrote you later after that but you never answered them - must have a boy friend.

Are you still working in the ship-yards?

Schools the bunk this year. With the exception of Helen and Thimata, there all old bags.

The study hall teacher is the worst. Mousy colored hair, soupy face, walks like an old plow horse, needs a new coat + is about 75 yo.

Then comes the type teacher. The first one was Wayne + I guess Helen has told you about her. Then we had Mrs. Bell. She was good + I liked her + then they imported this old Bag Weyer. She put a big over grow cow. (5' 11" 390 lbs)

This probably out to day because they got
little of that dirty of her. (catch cold)

But when we really have the fun in
Chemistry - We have Douglas Perkins and
we raise hell in there - Everyday some one
brings something to eat (3 of us) - so far we have
had, candy (all kinds) oranges, apples, coconuts,
potato chips, + me + Beverly Peterson brought
12 bottles of Pepsi Cola. When let us keep it
in the Home Ec. ice box until class. (some
gave her a bottle) ^{some was good} Doug. is quite the guy - every
time Thelma comes in for the absent slip
he drops the chalk, his book, can't find the
slip, and after she leaves it takes him ten
minutes to find his place again. Then she
won't believe me when I tell her, he has

With gray hair - pulled up on top + a mess.
With her I decide to quit type - I was getting
gray myself.

They cut our P.C class out for five weeks
while we take a HOME NURSING course.
One day we have a Red Cross Nurse - sh - long
white socks, dirty uniform and a MESS - The
next day we have an other old Bag.

Yesterday she gave a bed bath to Jean
Hallett. She always complaining about some
vertebrae ~~being~~ ^{being} out of place. so the nurse had to
wash her just right or she would faint.
There are her pajamas (really old clothes)

people That was the first
time I ever enjoyed that
class - sh before the class Jean
went up to the nurse and said, "I haven't taken
a bath for two weeks because I had the varicella"
