

Wanted of them.

On the fourth I irrigated the ten. We went to the parade in the morning and to the fireworks in the evening. Everyone had a grand time. Nothing was as big as in Long Beach but what there was was good. Dad and I were going to fence an Island out south but a fellow from St. Charles has taken it up. We will fence another one now. I think Dad will buy a hay outfit. He will leave to unless he works with Mitchel and I don't think he will. I don't think Mitchel wants to work with him.

Tell everyone hello including Beulah Lee. Lots of love to you and I will try to write again soon lovingly, your Grandson, Sean

July 18 1935

Dear Grandmother,

I received your nice letter and have been going to answer it ever since I got it. I have been sick in bed a day and the next day I pitched hay all day even though I didn't feel so good. I have been working since and now I feel as good as ever.

I wonder if you saw the total eclipse of the moon on the fifteenth. We did. It was full moon and the eclipse was total. It was surely a sight. I stayed up until after it was all over.

I went to Georgetown Sunday with Dad. He took Clifford Sizemore the hired man, and we saw his folks and friends. We had seven

plate and bought a new tire.  
We were going to see ~~about~~  
about buying a riding horse  
but the horse and owner was  
not there. I think we will go  
again soon. The other day  
Elyo Dayton and I built a  
raft and rowed across meeply  
Lake. We used the raft to  
work on in cleaning out a pipe  
to drain the lake so we can  
hay. We couldn't get it all  
cleaned out. There was sure  
a strong suction and we  
were careful not to fall in.  
It would just about take a pole  
out of our hands. Grandpa  
watched and helped build the  
raft. He is getting along fine.  
He was surely disappointed when  
you did not come with us.

He doesn't ~~feel~~ feel so good  
about Prozy leaving you. Why  
didn't Alta let her mother know  
before she went down to Long Beach  
or else wait a little instead of  
such a rush.

I am sorry about Mrs. Jandell.  
I guess I did not see Mrs.  
Wynner.

I wish I were down there to  
help with the yard. It is too  
hard for you to do much. I am  
glad you are taking your bath  
and walk. I believe it is doing  
you good but don't overdo. I  
wish I could see the neighbors  
and say hellos. Tell Don & Joe  
hellos for me.

I received the negatives and  
they were in good shape. I  
am glad you got what you

Mrs. Ream  
Pingle, Idaho
