Dear Mother,

I was glad to get your letter. Mamie was in Proun visiting Helen and attending the B.G.U. Leadership program. She was gone two weeks. She says that she had a good time. She has been back about two weeks now.

Just got a letter from Helen tonight. The school gave her a T.B. test and got a positive reaction. Now they want her to be X rayed. I have to write and let her know whether to be X rayed or not. I think she have a specialist if she does.

We have had a long, cold spell here but it seems to have broken now. For several days it has been quite warm, even rained a little. There is only a few inches of snow now. It will soon be gone if it stays warm and does not snow more.

(over)

I put up a lot of ice, so if you come home this summer we can have all the ice cream we want without chasing all over the country for ice.

The cattle are doing fine and I have plenty of hay. I have had a big loss in the sheep though. W.A. and J.R. are short on hay, but I guess they will be able to get enough.

It won't be long until spring now. We think of you a lot and hope you are well and that you will be able to come up this summer.

Best love
Wesley.
