My Dear Girl:

Your letter came just now and I was glad to get it. Have not had mail since Mon. K.O. Has been in Mt. Cayton getting logs and poles for J.H. & I for shed J.R. is building for 500 laying hens & I am building a circular shed just N. of the old log cabin, as I have not been on the job all summer I am not in a condition to be out lately but must, as it is I've not made much of an impression on the work on the ranch, just could not cut the mustard at present I've a very bad cold the last few days yesterday got the hay measured and had better than 625 tons I had 401 tons but I think there will be more You see I am just looking a little more after Bell's int, could tell more but what the use! W.W. was in this afternoon He will finish cutting the No. night no more stone. We have had a lot of bad weather here this yr. & in fact most every thing has gone bad I had my 12th fall and it sure was a good one & it did register in full a call and the lawn run round me &

was moving it - from my Green ash &
wrapped my legs close together so I could not-
move I reached down got the chain & tried
to stop it but was not strong enough so
it gave me a jerk from behind as it went
round so I got a fall that counted. Have
not moved yet. If I am a live there
will no more pets in this lot not even old
B. Everyone working hard as possible
just rested a few moments listening to a
campaign talk. Things are getting hot up here
just now Roosevelt is going to have a hard
time to win if he does.

Well it is too bad you are a loan so much
of the time. K.D. has stated that he expects
to leave here on Oct. 29 for Cal. so you
can look for him & Jean as I understand
By the way, Howard Boty & his son Dickie^{and}
coming, & and the rest of that part of the
family. Tell Ida Law hoping to get their
part of the ranch in shape. There will
be two colts next April if all well &
there is going to be some riding horses when she
come to take a rest on the old ranch that is
I can cut the muster. Well here the end of the
paper and so ends the writing. Love & care
who care for me and lots for you Will

Little or so. Roger Ream, but me this
letter & asked me to send it to Sr.
ma Ream & he expects you

he asks every day if
the letter for him from
Learna has come
& why don't she write his
