My Dear Sir,

Your letter one from B. ^{3rd} one from W. P. comes

coal it cost the consumer \$1 a ton Have another car
on road. The calves are dying of Black Leg lost one last
night. Will vac nate to morrow if weather is clear

It look like it might clear & be good weather
now. Will send the Strawberries to Mrs & Pionies also.
Am going to town & take 20 corks for W. & 20 & 30
for M.A. They are getting 20¢ per lb. for all but the
White Leghorns & 18¢ for them

Tomorrow is the 29 and I am turning the
ranch over to Dug, for one yr. reserving the
Peterson Place which I will improve if every
thing does not go against me. There is not much to
say. We are thru thrashing got done Tuesday las & it
snowed that night. Fred takes the last job.
It is 4 after 3 O'c, and I will go and dig the plants

and get them ready for mailing tomorrow-morrow.
Will you seem to be staying close in and only 3 of you
If you ever couldn't have a good time now would be
opportunity I think you could enjoy your club & indeed
this season I am here most time a time all day, but quit
a no. of callers drop in Mand Week came last Sunday
and gave me quite a visit. Dimonick & Grayls (was)
call quite often to talk on the phone. Walter & Mammie has
not been up for over a Mo the last time Mammie was down
she did not come up. I got M. in the morning to
do a little work & run the rollers in for the winter.

He made nearly 500⁰⁰ frack while he was working
The boys nearly 1000.00 total expenses were quite heavy
cant sell anything or give it away times getting worse
right-a long. You are lucky in some ways than or when
you are making a little & enjoying sunshine & getting away
from some thing you dislike good health included as
you have not mentioned otherwise etc, etc.

Everything as stated before is getting a long fire after
the fashion of the times & Country.
Will send you a bunch of pullets in a few days.
Love as ever to you Will.
