

terribly busy - We have piles of  
apples and plums in the lot - the  
are not ripe yet. I think I will get  
the crab apples put up before I  
leave here. I will try to get there  
before school starts.  
Tommy & his young just have been here  
for several days. Bats from Pa-  
has been here since Thursday -  
just left today. He intended  
to bring wife and baby but at the  
last minute it seems it was too  
lady to get up to take the trip. (Thanksgiving)  
Geo. Bailey and a bunch are coming down for the  
opening of duck season. You know how it is.

Dingle Idaho  
Aug. 19-1922.

I guess before now you  
have my letter saying  
Bentah would not be com-  
ing when I come. Well  
she got a telegram saying  
they did not want her just  
till Jan. but permanent  
and to wire if she could  
come. She was just start-  
ing off behind F. D. on the  
motor cycle to Henry to the  
big "round up" or riding  
contest so she waited till  
she got back. She wired  
an acceptance - They wired

right back "Come at once." So she  
went the next morning on the  
early train. She said "I suppose  
this means at least a year before  
I can get off. It was too good a  
thing to pass up - As it stands her  
higher up than bed side nursing.  
The rest you can see by her  
letters I am enclosing.

Sybil is working only five blocks  
from the Hospital.

I am sorry the blackberries  
did not have much fruit - You  
should have kept all the suckers  
down and cut the new growth  
on the other back, so it would  
fruit. Miller would have  
loaned you his pruners.

I am glad you are getting  
some figs put up. I sure have  
been putting up fruit. We bot.  
56 qts. raspberries and 15 qts goose  
berries, besides I put up our  
goose berries and black currants  
and 17 pts of cherries and 25 pts wild  
currant jelly. So you see I have been

for sure but I think Dan Rich  
will be principal.

Well - Wesley has written the  
state board but I am afraid  
nothing will be done. Another  
piece of news - The Dingle board  
came in body and hired Doughter  
to teach here. He went to Dunford  
to see if he could teach on his

State certificate for high school.  
She don't think so - So he has written  
the state. It will be a pity if he is  
good to teach in high school and it  
don't qualify him for Dingle grammar  
school. Write soon - <sup>Houghly</sup> W.C.C.P.

I could not quite finish on  
one sheet. Dad got Phyllis  
Lyons last Wed. to come and  
help me. She seems real  
good. If she continues  
good I will keep her till  
I go. I could not have gotten  
along this week without  
help - so much company  
and the fruit to put up.  
Ida, is there any thing  
you want me to bring  
when I come? If there is  
let me know.

Say Ida - you know I  
told you Wesley was going  
to teach at Bern - Well he

had all arrangements made -  
a furnished house rented &c.  
He would only teach 9<sup>th</sup> & 10<sup>th</sup>  
grades - 15 pupils for \$1600. <sup>per</sup> Anny.  
The other day Miss Dunford  
(the county supt.) called him  
up on the phone, and told him  
Beon was in debt a little and  
could not have junior high.  
If they started she would  
close their district. The same  
day the board came to see him  
They felt badly - said they  
consulted a lawyer (D. B. King)  
to see if she could do it. He said  
she could. I think it just  
a scheme to get the 15 students  
to Paris to help out their high  
school there. You see the Beon  
district would have to pay to  
Paris district so much for each  
pupil. You see the Fielding  
is no more. It - the building  
has been sold and it will be  
just a high school. I don't know
