Beautiful love  
letters, all doubts  
are gone

and it would save but moments  
of short duration - This feeling  
I hope to always retain &  
there by be a happy man  
I will not write you any  
more to night - It would be as  
Dattia said "The same length  
out" I thank you for requesting  
me to write you to night for it  
has given me quite a relief  
I don't know what I would have  
done had I not written you  
With this brief note I close  
Begging to remain as  
ever Yours  
Will

My Dear Girl  
I have been just  
25 min. coming down  
On my way I met two  
fellows or I passed them  
at the mill they must  
have been drunk for they  
insulted me & I turned round  
& spoke to them - They spoke  
to me rather rude but I soon  
let them know that they  
were not talking to me they  
could scare I & they quiet  
down - I will I found Mrs  
Forgesen sewing & the girls  
in at the neighbors to a party  
& the opportunity good to keep

my promise. And I shall  
do so I can say with  
a clearer conscience than  
ever before that I am truly  
pleased with my choice &  
believe you true to your  
promise. Which makes me  
perfectly satisfied. I love you  
as has been aptly many times  
And all I can say tonight  
is the same I mean it in  
it full sense. Further  
explanation + tests will  
be made in after life. This  
much more I will say that  
your love is well placed & I  
think you will never see the  
day that you'll be sorry that  
you loved me. I feel happy  
and confident in you to  
night. No doubts are resting  
on my mind in regard to you

in constancy and I hope you  
will be as full as I am from  
such ideas. Believe me that I  
am telling you the truth &  
am only too anxious to see  
you come + bring good news.  
You may be tired of school but  
you cannot be more so than  
I am of this kind of life. I  
feel like it would not last long  
& take comfort in the same.  
My love for you is beyond  
expression of words. My affection  
expresses more than words. Take  
read by as close an observer as  
yourself. You know that  
I am honest with you & have  
always been. You + you alone  
can I spend my time and not  
be impressed with the drag of  
monotonous hours. I could  
spend days in your society
