Nora thinking of  
teaching again  
Hill is against  
it.

by express,  
I have not had  
any work  
since I  
concluded all  
I would

Remaining  
The same  
Will  
Yours  
Love

it is due but if you should want  
it before you can get it simply  
by writing I have many little  
things to tell you but time is scarce  
I have to go to M. for a day twice a  
day + Frank to St. C. to deliver some  
machines I have been working hard  
every minute since I came in

I have wanted to write you  
often but was so off to bed at  
night + it has been so very late  
at the work was all done  
+ I would be quite weary I have  
been mowing nearly every day for  
three weeks I will be in L. soon  
Suppose Archie has got his books  
all O.K. Had the bill some time  
ago stating that they had been  
shipped some by freight + others

My dear friend  
Many days have  
passed since I had the  
pleasure of writing you but  
I find on taking the pen  
this morning my desire  
has not lessened. I have  
been working and my hand  
is unsteady unloaded three  
loads of hay before breakfast  
two before the sun was up Frank  
stacked them. Well I have  
just had breakfast and  
feel much better bodily
