Setting the date
for Nov.

Miss Anna E. Crockett

Dear Friend

Your letter with
some blank leaf came to me last night
& Will was truly glad to hear from you
I had one from Thomas too accompanied
with Edith's & John's photos on a
cabinet card together. I have half a
notion to send them to you this
morning. Now I have but little
time to write you and you must
not expect very long letters for a few
weeks as I will be very busy
harvesting. Don't you think we are
late doing so. It has been such
miserable weather we have not been
able to get in to the field for some time
grain is all dead ripe & wants cutting

You like Nov. Do you? Will Anna
may set the month up & this time Will
leaves it to her to say and what she
decides will please him. Tell me in
your next. I know it will be for I
want to know so I can arrang
& not have to change it. Will Anna.

I dislike to quit but must find
have to take some extra to it. I shall
& must do so. Ever yours Will

Excuse paper for it is all I have
