No date -

Good Morning

My Dear  
Miss Sarah Crockett

Sarah did not get home in time to ans. your letter on Friday so will do so this morning. Yesterday is a very good month, but rather late some falls is quite disagreeable in Dec. Sep. would have been a better one but it will be impossible to go then it seems unless we wait another year which I am not willing to do. Sarah you may name the day and month I leave it to you entirely. What suits you best will please me so you can make arrangements. Sarah may want to change the time or other events to consider that. Will know nothing of and I think it best that we set the time I will be ready any time after Nov. 1st. Sarah you speak of the event as not being very important which surprises me I was thinking it one of the most important one in my life. You can look at it in a different light

Well if it is <sup>not</sup> important -  
with you I suppose it will  
make but little difference to  
the work it may take place  
in, and should the trip not be  
as pleasant as it might have  
been I am well & our but little  
I was want to make the trip  
a pleasant one & harvest in  
a good season of the year  
So I will not be down  
until Nov. 1st that I know  
now. Yes I will be very  
busy for some time through  
harvesting & thrashing.

Joe & Dad do differ with  
bro. A. Just had one the  
other day in regard to cutting  
my wheat. Joe promised  
that he would not take any  
other persons a head of mine  
& when I told him yesterday  
my grain was ready he said  
he would cut it as soon as he  
came to it I asked him if he  
was not done cutting for those  
he had promised & if mine was  
not next in turn he  
said he had promised others  
to cut & would not break  
his promise I told <sup>him</sup> that was  
all I asked & all I wanted was  
my grain cut he said he  
would not leave any more grain  
& cut another I told him mine  
was a head of theirs I did not  
want him to leave it for  
others he turned white & got quite  
rathic & said he would cut it  
also he came to it then I told

him I would see that he  
come to it soon he had other  
words & I left the field I see  
they had the desired effect  
for he has just come & told  
me this morning that he would  
cut it & has sent word to those  
he perceived that he would not  
be able to cut these Now I will  
try & keep out of contentions &  
quarrels as long as possible  
but one thing sure my rights  
has got to be respected by all  
men I do not wish to dominate  
& won't suffer it even if I must  
quarrel a little. Right should be  
respected at all times by any  
& all persons I always think  
of Now when I get in to such  
difficulties & it has a great influence  
on You say they are going  
to have only two terms in the  
adjoining room - It would be  
nice if I could secure the  
but I hardly think I'll try if  
I should & get them I would  
not want you to teach

Now I will not write any more  
this morning I am going to My  
& will expect a letter a two for you  
Yours we'd have not gotten a paper  
yet I hope it should was the 11th,  
Aug. the 30 1883 just 2 more and your  
school is out Until then I am  
Ever True Samuel  
Will.

James Taylor
