Dear Mother

Your letters are always very welcome. Milton & Marnie called a few minutes last Wednesday.

Said you were feeling quite well.

I hope you received the little packet I sent last week. Vit. A. & C.

Trust your eyes are improving & that your general health remains good. You must conserve where ever possible.

The girls are good companions & I hope do not cause you too much trouble.

I think Lucile has written to Ed
giving Forrest's present address.

Also check Ishaer send it also.

Pvt Forrest D. Ream 39 047 562

Detachment of Patients.

Station Hospital

of Reconditioning

Camp Butler

No Carolina.

Forrest telephoned yesterday a.m. stating
that he feels he will get transferred to the
medical unit. His left hand & fingers seem
to be solid as he has been pronounced
unable to return to the infantry as a
combat soldier. We do not know just how
serious his condition is but it seems he will
have full function though the hands
may well be tender.

We are very thankful he did not lose
his eyes.

We are all well - getting along
as usual.

According to news reports it won't be long
before we hear from the folks in the islands.

Love from us all to all of you.

Love

Douglass.
