Dear Mother

We have been thinking of you
agitated over the holidays: especially
Christmas & your birthday. I had surely
intended writing you on the latter but,
the days snowed fast & sometimes
lose track of the count.

We were very pleased to hear you
are feeling quite well via your nice
letter also via Wesley of family.

Took some of the children to Miltona
about 10 days ago - They are all as usual.
We are all quite well proceeding
in a most ordinary way.

I presume you have heard that
Forest had an accident about 2 wks
ago in which he burned both hands

on arm and leg with phosphorus.

The exact details have not been given but, he says the burns are not serious. Expects to be hospitalized about 3 weeks. It seems he was working in the supply room at the time. ∴

Am sorry your dazzling still remains. Can you tell me if it has improved since starting Vaflo? Do you need more? if so just speak up.

Glad to know Ida is steadily recovering. Trust she will soon be well. Tell her hello for me all. Lets hope my face on the group picture doesn't scare everyone away.

Some day we shall have a better one.

Tell the girls we were sorry we didn't have a chance to see them but were happy they showed.

I just returned from the hospital (LJUAN) where I officiated at a first birthday party. If I hurry maybe I can get a little note off to Forrest before breakfast.

Much Love to all

Douglas ~~Flann~~
(lover of habit)
