May 21-51

Dear Mother:

Sybil called last night and it seems you are not very well. Have not you completely recovered from the cold contracted when we were there. Why don't you write & let us know just how things are going.

If you need anything don't hesitate to speak up. You must be sure to call in medical assistance if there is any question. Do let us know soon.

We are all well here, at present.

Forrest has been able to make strips home from Camp Roberts, but is expected to go to North Carolina in the very near future.

We are all hoping you will soon be well again.

Lovingly your kid

Douglas
